

1. Reddit saved page is not loading at all now.
2. UI still very bugged for insta following menu, will hold off on other testing till this is fixed

- a.
 - b. No individual unfollow, window size is very off, cant see other following besides the ppl who don't follow me back
 - c. Can't see the unfollow button in followers b/c of this messed up UI
3. Insta unsaved not working
 4. Let's just drop enhanced story composer
 5. Explain what the YouTube keyboard shortcut gap-fills means? whats the feature?
 6. X liked menu doesn't load
 7. Drop LinkedIn entirely
