

1. Reddit unsaved should let me choose which ones to unsave, not just unsave all (though unsave all should still be a feature)
2. Unfollowing from insta menu not working, it just updates the number of people not following me back. I'm talking specifically about the menu of people I follow that don't follow me back within the following menu, the regular menu allows me to unfollow and shift unfollow perfectly well.
3. Drop all tiktok features
